DYNACO D-641 POWER

The Dynaco D-641 Power is specifically designed for medium sized outside applications with intensive use. It protects your environments against wind, rain, snow, dirt and extreme temperatures. Operating speed and perfect sealing properties improve your traffic flows and provide employee comfort, environmental control and savings on energy costs. Fully self-reinserting, the Dynaco D-641 Power will automatically reinsert itself in its side guides when the curtain is accidentally hit.

Special features for easy installation and maintenance reduce the cost of ownership, while the small build-in dimensions allow maximum use of the available space.

The special design of the driving system and reintroduction block reduce operating noise, increasing comfort of use.
